

QUARTERLY MEMO

Guadalupe Regional Medical Foundation

New This Quarter

A Letter from the CEO

GUADALUPE
REGIONAL
MEDICAL
FOUNDATION

In a time of uncertainty, such as now during the COVID-19 pandemic, our community faces new challenges. Over the past few weeks, many individuals from the community have donated items to the hospital, including Personal Protective Equipment (PPE), handsewn masks, and food for employees. Other community members have joined in prayer on behalf of our healthcare workers and shared their thanks in various ways.

The Guadalupe Regional Medical Foundation is working hard during this time to provide support to Guadalupe Regional Medical Center and our staff. We are continually astounded by our staff's commitment to providing excellent patient care and also how the community rallies behind them.

We continue to look ahead to the future, and prepare and adapt to the new normal. We are thankful for each of you during this time, and we cannot wait to join you once again in person.

Our [#GivingTuesdayNow](#) fundraising campaign begins tomorrow! Join us for a day of giving, kindness, and positivity.

If you would like to donate towards one of our causes, such as the Women's Imaging Center, COVID-19 lab equipment, or to the Greatest Need, please visit our website at grmedfoundation.org, or call 830-401-7209.

We will get through this stronger, together! Be safe, and stay well!

Best,

Elaine W. Bennett

Elaine W. Bennett, GRMF CEO

Kindness rocks placed anonymously at the Central Entrance in support of our GRMC staff.

DONOR SPOTLIGHT

CMC Steel

CMC Steel, located in Seguin, Texas, has provided support to Guadalupe Regional Medical Center (GRMC) and Guadalupe Regional Medical Foundation (GRMF) for many years. Recently, CMC produced a COVID-19 testing booth for our ER staff to use when testing patients, which is safer and more effective. The testing booth has been instrumental in protecting our staff, our patients, and reducing the waste of PPE. The reduction of the waste of PPE is critical to GRMC staying prepared during this pandemic.

CMC also donated N95 masks and goggles for our healthcare workers to assist during the crisis. We are extremely blessed to have CMC as a donor and supporter of GRMC and GRMF, and their quick response to help in any way possible.

Thank you, CMC Steel! You are appreciated!
